Versana Active links you to vast GE ultrasound expertise. It's designed to practice, and your patients in mind to clinical, workflow and connectivity n

Applications, educational support, attractive financing

The system for comprehensive GP scanning

Active makes exams comfortable for you and your patients, in clinic. Scan at bedsides, exams. Perform abdominal, OB/GYN, cardiac, MSK and vascular exams, and more – plus more. This highly adaptable system lets you add a cart to create a full-featured console for practice needs. Fast boot-up lets you place the system in standby, then instantly scan the next patient. Advanced clinical applications and automated tools simplify exams, streamline workflow, and improve patient care.

Prostate Productivity Tool
Prostate characterization and assessment
